

Past CEnREP Colloquia

All meeting times are Fridays from 12:00 – 1:00 p.m.

The CEnREP Luncheon Colloquium provides faculty and students with interests in environmental and resource economics an informal, ongoing forum in which they can present research to receive early feedback on their projects.

CEnREP Colloquia Schedule - Fall 2016

Friday, September 9

Laura Taylor, Professor, Ag & Resource Economics, NCSU
Water Use in the Landscape: A Comparison of How Irrigation Technologies and Water Quality Influence Behavior

Friday, September 23

Harrison Fell, Associate Professor, Ag & Resource Economics, NCSU
Fuel Prices, Restructuring, and Natural Gas Plant Operations

Friday, October 14

Jonathan Lee, Assistant Professor, Economics, East Carolina University
Electric Utilities' Prolonged Reliance on Coal: The Impact of Marketable Coal Combustion Byproducts on Fuel Switching

Friday, October 21

Christopher Galik, Assistant Professor, Public Administration, NCSU
Modeling Landowner Behavior and the Implications for Preexisting Conservation Policy

Friday, November 4

Lawson Connor, Ph.D. Student, Economics, NCSU
Grower responses to spillover effects from large-scale adoption of transgenic pesticidal corn in the Philippines

Friday, November 18

Natasha James, Ph.D. Student, Forestry and Environmental Resources, NCSU
The Impact of Targeting on Participation in Costa Rica's 'Payments for Ecosystem Services' Program

CEnREP Colloquia Schedule - Fall 2015

Friday, September 11, 216 Scott Hall
Lightning Talks

Join us for "lightning talks" in which nearly a dozen faculty on campus who work at the intersection of economics and the environment, natural resources, and energy will give brief overviews of their current research and interests.

Friday, September 18, 121 Kilgore Hall

Jane Harrison, Coastal Economist, NC Sea Grant

*Beach Economics: Contingent Valuation, Conjoint Analysis, and Agent Based Models
Improve Beach Manager Decision Making in the Great Lakes*

Friday, October 2, 121 Kilgore Hall

Wally Thurman, Professor, Ag & Resource Economics, NC State

Tax Incentives and Private Land Conservation

Friday, October 16, 121 Kilgore Hall

Paul Fackler, Professor, Ag & Resource Economics, NC State

Dealing with Catastrophe: Prevention and Adaptation

Friday, October 23, Nelson Hall Board Room (3220)

Jake Hochard, Asst. Professor, Dept of Economics, East Carolina University

Using behavioral ecology and elasticity measures for management of ecosystem services

Friday, November 13, Nelson Hall Board Room (3220)

Marwa Salem, PhD student, Economics, NC State

A Latent Class Discrete Continuous Choice Estimation of Residential Water Demand

Friday, December 4, Nelson Hall Board Room (3220)

Chris Giguere, PhD student, Economics, NC State

Efficient selective targeting: An empirical evaluation of North Carolina's motor vehicle emissions inspection and maintenance program

CEnREP Colloquia Schedule - Spring 2015

Friday, January 16

Steve Dundas, Ph.D Candidate, Economics, North Carolina State University

“The Benefits and Ancillary Costs of Constructed Dunes: Evidence from the New Jersey Coast”

3220 Nelson Hall (Board Room), 12:00

Friday, February 6

Giuseppe Fiori, Assistant Professor, Economics, North Carolina State University

“Green Policies and Aggregate Investment: Does Capital Heterogeneity Matter?”

3220 Nelson Hall (Board Room), 12:00

Friday, February 27

Patty Champ, Research Economist, Forest Service, Rocky Mountain Research Station **James**

Meldrum, Research Economist, Forest Service, Rocky Mountain Research Station

“Wildfire Risk and Homeowners: Like a Moth to a Flame?”

3220 Nelson Hall (Board Room), 12:00

Friday, March 20

Sankar Arumugam, Associate Professor, Department of Civil, Construction, and

Environmental Engineering, North Carolina State University

“Improved Water Management Utilizing Climate Information: Opportunities and Challenges”

121 Kilgore Hall, 12:00

CEnREP Colloquia Schedule – Fall 2014

Friday, Sept 18

Jane Harrison, Coastal Economist, NC SEA Grant

Friday, Oct 16

Paul Fackler, Professor, Ag & Resource Economics, NCSU

Friday, Oct 23

Jake Hochard, Asst. Professor, Dept of Economics, East Carolina University

Community green: exploring the feedbacks between civic engagement, environmental attitudes and conservation behaviors using an international household survey

Friday, Nov 13

Marwa Salem, PhD student, Economics, NC State

Friday, December 4

Chris Giguere, PhD student, Economics, NC State

Efficient selective targeting: An empirical evaluation of North Carolina's motor vehicle emissions inspection and maintenance program
