

A Few Thoughts On Publishing

Publishing is hard

- ▶ Acceptance rates are low
- ▶ Universe of authors is large

Write well crafted papers

- ▶ More than just editing
- ▶ “Analyze each sentence”
- ▶ Tell a story

That stupid referee doesn't understand ...

- ▶ Is your paper well crafted?
- ▶ Is the referee report well crafted?

Referees advise, editors decide

- ▶ Probability of revision given two no votes $\neq 0$
- ▶ Probability of revision given two yes votes $\neq 1$
- ▶ Split decision?

Got a revise and resubmit?

- ▶ It's your paper
- ▶ But don't needlessly antagonize referees
- ▶ Respond to all comments

Got rejected?

- ▶ It hurts
- ▶ Absorb, reflect, move on

Thank You!
